WHAT IS THE FUNCTION AND STRUCTURE OF A DIVERSITY TRAINING COMMITTEE (DTC)

HOW DOES A DTC BENEFIT VETERANS, TRAINEES, STAFF, AND VHA FACILITIES

WHAT RESPONSE HAVE WE SEEN WITH DTCS AND HOW CAN YOU GET STARTED
What is the function and structure of a Diversity Training Committee

The South Texas Veterans Health Care System (STVHCS) Psychology Department has developed a Diversity Training Committee (DTC) which is designed to be a valuable resource to training programs, trainees, staff, and Veterans alike.

The goal of the committee is to:

- increase trainees’ cultural knowledge
- promote greater self-awareness
- develop and implement in-classroom and experimental learning opportunities
- broaden psychology trainees’ understanding of cultural/diversity/social justice factors that shape our community and the world as a whole
- cultivate comfort with engaging in culturally aware dialogue across all levels of mental health services and practice
- Share ways in which other VHA psychologists, departments, and training programs can promote equity and inclusion in training, clinical practice, and the workplace.
What is the function and structure of a Diversity Training Committee

STRUCTURE
Time Commitment:
- Six-month committee experiences offered based upon interest/yearlong for LPMHC Interns and Practicum Students
- Meeting will occur once a week for one hour (via Teams)
- Additional time as needed/requested by trainees as date of project nears (newsletter contributions/preparation for Training Committee meetings/admin projects)

Trainee Offerings (subject to change):
- 4 Psychology Interns
- 4 Psychology Fellows
- 1 LPMHC Student Interns (*yearlong experience)
- 2 Psychology Practicum students (*yearlong experience)
- Can accommodate 8 trainees max, per six-month rotation (19 a year)
How does it benefit Veterans, trainees, staff, and VHA facilities

How does it benefit Veterans, trainees, staff, and VHA facilities

Upon completion of the Multicultural/Diversity Immersion Committee Experience:

- trainees will have challenged preconceived notions/biases
- cultivated a deeper understanding of our Veteran population
- enhance their overall cultural awareness as emerging psychology practitioners

Photo: https://www.va.gov/vetdata/veteran_population.asp
What response have we seen

From our trainees:
- “Immersion experiences have been a great way to become acclimated to the San Antonio area and better comprehend many of their local patient’s culture and experiences.”
- “This was a great experience. I don’t think I would have done this on my own!”
- “This was 10X more useful/valuable than reading a book!”
- (I will be) “attending more to patient understandings of their cultural heritage and backgrounds.”
- “I learned so much!”
- “...excellent supervision and assisted me with refining my multicultural conceptualizations and interventions.”
- “...provided an informative and powerful rotation and supervision experience, and I am so thankful I got the opportunity…”
- “I had the pleasure of interviewing and composing a story for a Veteran that had a rich and compelling life journey. Reading back the story to him was a moment that captured the true power of healing through story telling. As he teared up, his gratitude radiated through the screen and I knew this printed version of his life’s experience would be something he hung in his home as a reminder of how far he has come, just like writing it reminding me of how much our work matters.”

From staff:
- Awareness Matters Newsletter has been a breath of fresh air to read, staff are eager to get involved with the DTC, and BIPOC trainees feel empowered

From leadership:
- Asked to collaborate with EEO on structuring Hospital DEI committee and DEI campaign
Considerations for getting started

**Consider the needs of your Psychology Department and VA Hospital.**
- Describe/Outline your vision.
- Organize and define your team’s structure (members, workgroup, etc.)
- Conduct Best Practice Review and Identify S.M.A.R.T. goals

Meet with your supervisor/leadership regarding your vision and proposed structure. Discuss possible avenues of implementation.

Review OMHSP diversity, equity and inclusion SharePoint: [OMHSP Sharepoint](#) and additional resources available.
